AVSPMC

Free self-assessment for projects under way

Project health check

Twenty-five questions to tell, in fifteen minutes, whether your building project is on track. Score each one, add up the total, and see where to act first.

How to score: Yes = 2 points, Partly = 1, No = 0. Answer from evidence you can show someone, not from what you have been told. Maximum 50.

Time (10 points)

Question	Score
1. Is there one written programme that the contractor and every consultant work to?	2 1 0
2. Was that programme updated with actual progress in the last two weeks?	2 1 0
3. Can someone tell you today's forecast completion date and the activities driving it?	2 1 0
4. Are drawings and decisions reaching site before the work needs them?	2 1 0
5. Is the labour on site matching what the programme needs?	2 1 0

Cost (12 points)

Question	Score
6. Is there a current cost report: budget, committed, paid and forecast final cost?	2 1 0
7. Is the forecast final cost within the approved budget including contingency?	2 1 0
8. Is every bill checked against measured work before payment?	2 1 0
9. Is every variation approved in writing before the work is done?	2 1 0
10. Are advances to contractors being recovered as agreed?	2 1 0
11. Is there contingency left for the remaining risks?	2 1 0

Quality (10 points)

Question	Score
12. Is work inspected and signed off before it is covered (reinforcement, conduits, waterproofing)?	2 1 0
13. Are concrete cube and material test results on file and passing?	2 1 0
14. Are materials on site the approved brands and grades?	2 1 0
15. Is there a list of defects with owners and dates, and is it getting shorter?	2 1 0
16. Is site building from the latest drawing revision?	2 1 0

Contracts and communication (8 points)

Question	Score
17. Does every contractor and consultant have a signed contract with a clear scope?	2 1 0
18. Are there regular minuted site meetings with actions and owners?	2 1 0
19. Do you, the owner, get a short written status at least every two weeks?	2 1 0
20. Are there no open disputes or unanswered claims older than a month?	2 1 0

Safety and approvals (10 points)

Question	Score
21. Are workers wearing helmets, shoes and harnesses at height, every day?	2 1 0
22. Are edges, openings and scaffolds protected?	2 1 0
23. Is the project insured (contractor's all-risk and workmen's compensation)?	2 1 0
24. Are all approvals valid, and is the site built as per the sanctioned plan?	2 1 0
25. For developers: are RERA updates and disclosures current?	2 1 0

What your score means

Total	Status	What to do
40 to 50	Healthy	Keep the reviews going; fix the few zeros.
25 to 39	Needs attention	Fix the zeros in Time and Cost first; they compound fastest.
Below 25	At risk	Get an independent review before more money is paid out.

> **Warning signs that override the score:** payments running ahead of progress, the finish date moving every month, work being redone, or the contractor reducing labour on site.
